

Oh No! It's Ozone!

Get the picture?

**Share the ride this summer.
Ride transit, carpool, or telework.
You'll reduce your gasoline cost AND reduce ozone pollution.**

Ozone is formed when pollutants emitted by cars, power plants, and other sources react chemically in the presence of sunlight. Ozone at ground level is a harmful air pollutant.

What Can You Do?

- Try Transit - Carpool - Telework
- Don't Use Drive-thru Options
- Don't Drive At Lunchtime
- Refuel After Dark

**And, if a High Pollution Advisory (HPA) for Ozone or
Particulate Matter is issued:**

Take Transit • Carpool • Telework
and then log on to

www.capitolrideshare.com and enter that day's HPA Contest.

Do you already share the ride at least twice a week? We have a reward for you. Call us. 602.542.7433.
